PHYSICIANS IMMEDIATE CARE ACQUIRES IMMEDIATE MD

(Chicago) Physicians Immediate Care (PIC) and Immediate MD (IMD) announced they have entered into a definitive agreement under which PIC will immediately acquire IMD, its four Chicago urgent care clinics, and all medical & administrative staff. The addition of IMD brings PIC's urgent care and occupational health clinic count to 42 clinics overall with 35 in Illinois and 11 in Chicago.

The acquisition supports Physicians Immediate Care's continued effort to expand quality urgent care services in Chicago and the surrounding communities. The four IMD locations - in the Chicago neighborhoods of Lincoln Park, Old Town, North Center and Jefferson Park - are a great fit with PIC's current clinic network. PIC's state-of-the-art clinics are open seven days a week with patient-friendly hours, fully equipped with x-ray capability, lab testing and multiple exam rooms for treating non-life-threatening injuries and illnesses.

"We welcome the Immediate MD team into the Physicians Immediate Care family, and we are excited to expand the access to quality, affordable care for the benefit of our patients and our occupational health partners," added Stan Blaylock, CEO of Physicians Immediate Care.

"This transaction expands our ability to take our vision of convenient, quality care to the next level. Our shared values, commitment to quality care and high quality professional medical team will continue

to make a difference in the Chicago market,” added Brad Bohmer, President of Immediate MD. The Immediate MD team has served Chicago for four years and will now transition over to Physicians Immediate Care.

As the health care industry continues to shift its focus to treating patients in the right place and at the right time, Physicians Immediate Care is well-positioned to continue to grow and serve its core markets across the Midwest.
